SUBJECT INDEX

Addiction, drug urges 123
Adolescents, behavioural treatment of PTSD 250, 262, 265
Affect, craving 153
Affect expectation, measures of 171, 173
Affect, hunger 155
Affective disorders, juvenile delinquents 95
  treatment 109
Affective information processing questionnaire, smoking 173, 175, 183, 185, 187
Affective processing, smoking motivation 169–193
  measures 173
  withdrawal 180
Alcohol abuse, juvenile delinquents 103
Alcoholics, cue-elicited urge to drink and salivation 195–210
Anxiety disorders
  flooding 247
  juvenile delinquents 100, 109
Arousal-activation theory of personality 211
  application 231
  historical development 213
  interaction between extraversion and neuroticism 225
  logicosystematic and empirical status 238
  postulates 216
Arousal-determined performance 231
Ascending reticular arousal system 215, 220, 221, 229
Associative phenomena in human conditioning 34
  blocking 36
  covariation assessment and bias 34
  higher-order conditioning 38
  latent inhibition 36
  phobias 42
  sensory preconditioning 37
Attention deficit problems, juvenile delinquents 98, 109
Attitudes, social behaviour 236
Attributional style, smoking motivation 170, 175, 187
Automaticity 130
  drug-use 132
Aversive images, PTSD 267

Basic Behavioural Repertoires 9
  paradigmatic behavioural assessment model 15, 21
Behavioural assessment 1
  paradigmatic 7
    model 14–24
  weakness in 2
Blocking, human conditioning 36
  treatment of phobias 56

Children, behavioural treatment of PTSD 262, 265
Classical conditioning
  animals 31, 48
  humans 29, 30, 32
    associative phenomena 34
    blocking 36, 56
    covariation assessment and bias 34
    latent inhibition 36, 56
    model 39, 48
    phobias 42, 53
    sensory preconditioning 37
Comorbidity, mental health and juvenile delinquency 93–120
Conditionability, personality 233
Conditioned satiety 158
Conditioning
  craving and hunger 150, 152
  history and BBRs 12
  models 39, 48, 53
  panic disorder 54
  phobias 42, 53, 55
Conduct disorder, juvenile delinquents
  depression 95
  disruptive behaviour disorders 98
  treatment 105
Contingency learning 39
Coping plans 171
  fears 52
  urge to drink 207
Covariation bias, human conditioning 35
Cravings 141
  affect 153
  cue-reactivity and individual differences 195–210
  drinking 195
  drug use 156
  hunger 143–167
    physiological correlates 146

production in the laboratory 127
regulatory mechanisms 149
stimulus-elicited 150
Criminal behaviour, juvenile, mental health 93–120
Cue-reactivity
cravings 127, 128
urge to drink 195
individual differences 201, 202
measures 200

Delinquency, mental health 93–120
anxiety disorders 100, 109
depression 95, 109
disruptive behaviour disorders 98, 105
mental retardation 102, 110
personality disorders 101
sexual deviations 112
substance abuse 103, 111
treatments 105
Denial, fears 52
Depression
juvenile delinquents 95
treatment 109
paradigmatic behavioural assessment model 19
Descriptive personality theory 213, 217, 218
Disruptive behaviour disorders, juvenile delinquents 98
treatment 105
Drinking, cue-elicited urge 195–210
Drug addiction, juvenile delinquency 103
Drug urges, cognitive model 130
Drug use, craving 156

Eating, hunger 157
Emotional processing 258
Endemic images, PTSD 265
Environment
behaviour 8, 10, 12, 16
depression 20
stimulus-elicited craving 150
Excitation-inhibition theory of personality 214, 217, 219
Extraversion 217
arousal-activation theory 229
descriptive personality theory 218
interaction with neuroticism 225
stimulation and self-stimulation 235

Fears
classical condition 29, 35, 44, 256
coping strategies 52
preparedness 45
spontaneous fluctuations 51
treatment 56
Flooding 247
PTSD 250, 253, 265, 270
Food deprivation, hunger 145

Gender, affective processing and smoking 178

Hedonic tone 215, 224, 229
Hunger
affect 155
craving 142–167
eating 157
physiological correlated 147
physiological press 145
regulatory mechanisms 149
stimulus-elicited 152
Hyperactivity disorders, juvenile delinquents 98
treatment 109

Imagery, drug urges 127
Imaginal flooding, PTSD 250, 253, 265
models 255
Intelligence
delinquency 102
paradigmatic behavioural assessment 21
Interest tests, occupational success 22
Introversion–extraversion 214

Juvenile delinquents, mental health 93–120
anxiety disorders 100, 109
disruptive behaviour disorders 98, 105
major affective disorder 95, 109
mental retardation 102, 110
personality disorders 100, 110
psychotic disorders 101
sexual deviations 112
substance abuse 103, 111
treatment 105

Keystone target behaviour 6, 10

Language-cognitive repertoire 9
deficits in 15
Latent inhibition, human conditioning 36
treatment of phobias 56
Learned helplessness, depression 19

Major affective disorder, juvenile delinquents 96
treatment 109
Manual fidelity, phobia therapy 82
Mental health, juvenile delinquents 93–120
anxiety disorders 100, 109
disruptive behaviour disorders 98, 105
major affective disorder 95, 109
mental retardation 102, 110
personality disorders 100, 110
psychotic disorders 101
sexual deviations 112
substance abuse 103, 111
treatment 105
Mental retardation, juvenile delinquents 102, 110

Neuroticism
activation theory 215, 229
descriptive personality theory 218
interaction with extraversion 225
sport 235
Nicotine, personality 235

Panic disorder, conditioning model 54
Paradigmatic behavioural assessment 7
model 14–24
Performance
arousal for 215
stimulation and self-stimulation 234
Personality
activation theory 211–246
measurement 8
Personality disorders, juvenile delinquents 100, 110
Phobias
acquisition processes 49
classical conditioning 29, 42
conditioning models 53
coping strategies 52
tailor-made versus standardized therapy 67–92
treatment 56
Positive and negative affect scale, smoking 173, 176, 185
Postconditioning stimulus revaluation 31
Posttraumatic stress disorder
behavioural treatment, children and adolescents 249, 261, 265
emotional processing 259
imaginal flooding 250, 253, 265
models 255
relaxation training 268
Preparedness, fear 45
Problem behaviours, paradigmatic behavioural assessment model 15
Project ADAPT 111
Protoform of arousal-activation theory of personality 214, 219
Psychophysiological activation theory 217, 219, 220
Psychiatric disorders, juvenile delinquents 101, 110

Radical behaviourism 8, 10
Relapse
affective response model 172
vulnerability 169
Relaxation training, PTSD 268

Salivation
craving 147
hunger 148
urge to drink 197, 201
Satiety, hunger and eating 158
Schizophrenia, juvenile delinquents 101
Self-stimulation, performance 234
Sensory preconditioning 37
Sensory-specific satiety 159
Sexual deviations, juvenile delinquents 112
Smoking
affective processing 169–193
measures 173
withdrawal 180
urges 125, 127
Social behaviours, extraversion 237
Social learning, urge to drink 207
Sociopathy, juvenile delinquents 101
Spontaneous remission, fears and phobias 52
Standard presentation mode for psychological theories 212
Stimulation, performance 234
Substance abuse, juvenile delinquents 102
treatment 111
Suicide, juvenile delinquents 97

Tailor-made therapy, phobias 67–92
Target behaviours
juvenile delinquents 107
paradigmatic behavioural assessment model 15
Theory of arousal-determined behaviour 217, 227, 240
Theory of habitual excitation 217, 226, 240
Theory of situational excitation 215, 217, 222, 240

Therapist's experience, phobia treatments 76
Trauma
behavioural treatment 247–275
phobias and conditioning 42, 49, 56

Urges
affective processing and smoking 169–193
cue-reactivity and individual differences 195–210
drinking 195
drug-use and addictive behaviour 123
cognitive model 130
impediments to research 124
production in the laboratory 126

Verbal-Motor repertoire 9
Vicarious learning, phobias 49
Visceral brain system 220, 229
Vigilance, activation theory of personality 232

Withdrawal, affective processing and smoking 180, 190

Yerkes–Dodson law 215, 234

PRINTED IN GREAT BRITAIN BY BPCC WHEATONS LTD, EXETER
